WHERE DESIGN MEETS FLAVOR AND FOOD CULTURES UNITE TO TELL STORIES

OUR SPACE

Designed by Basile Studio, the 20,000 SQ FT space features **9 kitchens, 2 bars, and 2 outdoor terraces**, making it an immersive destination for food and flavor lovers. Whether you're savoring diverse dishes, a craft cocktail, or enjoying the vibrant atmosphere, there's something for everyone at STATION8.

Welcome.

SAVOR THE EXPERIENCE, FEEL THE CONNECTION

Our mission is to create a dynamic and sustainable food hall that connects the vibrant UCSD campus with the greater La Jolla community. By curating diverse, locally-sourced, and environmentally conscious dining experiences, we aim to foster connection, creativity, and learning.

Committed to sustainability through responsible sourcing, waste reduction, and partnerships with local farms and purveyors, our market hall is a welcoming space where students, faculty, and the community come together to share meals, ideas, and cultures —nourishing both people and the planet.

Flavors inspire and fill our kitchens as we strive to make life tastier for all.

Absolute dedication to creating exceptional experiences, we craft every detail to exceed expectations.

Thoughtful and considerate of our world impact, we have a deep respect for the planet, sustainability, and the people we serve

Form, function, and grit are imperative in what we craft and the beauty that shows up.
